

MANGA BLITZ CELEBRATES ITS TWO YEARS WITH THE RELEASE OF VOLUME 6

Monaco, February 11, 2022, two years already since *Blitz* was launched. These 24 months of existence have enabled the first manga produced between Monaco, France and Japan, to grow and acquire a real notoriety, on the level of manga readers as well as chess players. Associating these two worlds was a risky bet, but starts being successful with more than 50 000 copies sold, to date, on the French territory only.

Such an honor, to have had great chess champions support during our focus week at the Dubai World Expo, where *Blitz* is present to represent the cultural diversity of Monaco until March 31, 2022.

> **Maxime Vachier-Lagrave, current Blitz World Champion.**

> **Sophie Milliet, European champion and six-time French champion.**

The presence of *Blitz* in Dubai allowed the author, Cédric Biscay, to share his feelings and experience with the present public and the personalities.

"I have just returned from the Dubai World Expo where I was able to see the installations dedicated to Blitz in the Monaco Pavilion. It was really great to play chess with the visitors and participate in such a great international event. I would like to take this opportunity to also announce that two great personalities from outside the world of chess will appear in Volume 6."

Release on February 25th

This volume 6 allows us to see our heroes evolve in Kyoto, during the national tournament and discover more about the intentions from the one who will reveal himself more and more as the main antagonist of the series.

Some characters hidden personalities are revealed in an unexpected way as the competition progresses.

The story, as always intense, puts into perspective all the protagonists, who step by step see their ambitions merging towards the same goal. Chess games are very present in this tome, which makes it possible to stage them as always, in a spectacular and ludic way.

Blitz continues to benefit from the expertise of the famous Garry Kasparov, in order to

give credibility to the manga among players.

A wonderful moment of happiness for all fans of chess and manga.
